## Professional Experience & Technical Projects

### Full Stack Mobile & Backend Developer

#### DANGBÉ SARL

Jan 2026 – Jun 2026

Development of a tontine management product application.

- Built the NestJS/Prisma/PostgreSQL backend: OTP/JWT authentication, KYC module, Kkiapay payments, a scheduler driving the full tontine lifecycle, and multi-channel notifications (SMS/push/in-app)
- Built the Flutter mobile client (Stacked MVVM architecture) and the React.js admin dashboard, with the nabi-app.com website

Stack & Tools: Flutter, NestJS, Prisma, PostgreSQL, Firebase

### Web Development Intern

#### Direction FECECAM Abomey-Calavi

May 2024 – Aug 2024

- Built a credit guarantee management application

Stack & Outils : Next.js, JavaScript, MySQL, Git.

### Web Development Intern

#### Go Digital Technology

Jun 2023 – Aug 2023

- Built a task manager with Laravel
- Handled optimization and integration work on WordPress.

Stack & Tools : Laravel, PHP, MySQL, WordPress, Git

### Email Manager

#### Personal project

Jun 2026

Multi-account email assistant controlled from Telegram, with an AI agent that summarizes messages and drafts replies.

- NestJS backend connecting multiple Gmail accounts via Google OAuth, managed through a Telegram bot
- AI agent using Gmail's service tools to read emails and generate summaries and replies

Stack & Tools : NestJS, Prisma, PostgreSQL, Telegram Bot API, Docker, CI/CD, Heroku

### Dashboard-Widgets

#### Epitech Bénin - Coding Academy

Nov 2025

Dashboard where users connect third-party services and compose their own widgets.

- Built the NestJS/Prisma/PostgreSQL backend and integrated third-party APIs (GitHub, Google Custom Search, OpenWeatherMap, ZenQuotes, Trello) plus Google/GitHub OAuth
- Built the React frontend and the widget registry

Stack & Tools : NestJS, Prisma, PostgreSQL, React, Vite, Docker

## EDUCATION

### Full Stack Web & Mobile Development Certification

#### Epitech-Bénin, Coding academy

2025 - 2026

### Bachelor's in Business Computing (Licence en Informatique de gestion)

#### Ecole Nationale d'Economie Appliquée et de Management ENEAM

Track: IT analysis & Programming

2021 - 2024

### Baccalauréat Series C

#### CEG Les pylônes

2020 - 2021

## PROFILE

Full-stack developer with strong software fundamentals and a growing focus on system architecture, Cloud, and DevOps. I turn requirements into solutions that scale, and keep sharpening my skills to ship reliable, maintainable products.

## Languages

English Intermediate

French Fluent(Native)

## Technical Skills

### Frontend :

React.js React Native Next.js Vue.js  
Tailwind CSS TypeScript Flutter Figma

### Backend :

Laravel Nest.js Flask Express.js

### Databases :

MySQL MongoDB Sqlite Supabase Postgres Sql

### Tools / DevOps :

Github Docker Postman VS Code Figma  
Render Vercel Swagger CI/CD Heroku Gitlab

## SOFT SKILLS

- Fast learner
- Critical thinking
- Team adaptability
- Ability to prioritize

## INTERESTS

- Sport
- AI engineering
- Chess
